Part B for November 1933

SUBJECT.

Water Supply to Bangalore city from the Sir Chamarajendra Water Works, at Thippagondanahalli

---

ml 17) The Municipal commissioner, Bangalore city
Comptroller to Govt
" Chief Engineer
" Heads of Departments

Gos No 2 3075-3145 dated 6-11-1933

Passes orders on certain points connected with the above

RMC 3/2/34

Serial No	
	Letter No 4 To 58 dated 12-8-1933 from the Municipal Commissioner, Bangalore city stating that a bill for Rs 15,000 being the Government grant for the 2nd half year of 1932-33 towards the maintenance of the New Water Supply scheme has been disallowed for want of specific orders of Govt for the payment of the amount and requesting orders in the matter
D	(Government have agreed to contribute Rs 30,000 per year towards the maintenance of the New Water Supply from Hesseraghatta in their office letter No L 4263/Ml 81-29-14 dated 10-12-1931 and accordingly a sum of Rs 15,00 was provided on the receipt side of the budget for Municipality being the Govt grant for the 2nd half year of 1932-33 as the new water supply scheme was contemplated to come into effect from
L*	1-1-1933 (Vide Govt No. L 1879-80/Ml 226-31-28, 8-9-3
	The Comptroller has disallowed the bill for the Govt grant of Rs 15000 on the ground that there are no specific orders of Govt for the payment of the amount and that no provision seems to have been made in the State Budget for the same
J	It is seen from the Chief Engineer's letter No 12170 dated 29-5-1933 that the service from the Sir Chamarajendra Water Works at Hesseraghattahalli was started on 15-3-1933 and not from 1-1-33 as previously contemplated. The Municipality can perhaps claim the grant promised by Govt only

NOTE—Contn. Sheet.

from 15-3-1933. The source from which the grant for 32-33 ~~has~~ to be paid has also to be determined as the Comptroller ~~observation~~ has observed that no provision in the State Budget has been made for the payment of the amount.

Submitted for orders.

Rem 16/8 PN

2- The Govt Contribution promised in this Office letter Cy to 12-31 referred to and conformed in GO no L1129-31 dy 9-8-33 ~~is~~ upto Rs 30,000' So, the amount to be actually paid depends on the amount realised under the other items earmarked for payment of the water ~~supply~~ charges due to the Municipality. Since, however, the Municipality are not yet deriving additional revenue under some items viz metering unmetered connection, reduction of free allowance &c it maybe taken that Govt will have to contribute the whole of Rs 30,000 for some time

For the year 1932-33, the Contribution is payable only for 3½ months since the Hesaraghattanahalli reservoir came into service ~~only~~ from 15-3-33, and the amount due to the Municipality is only Rs 8750/- As no provision ~~has~~ been made in the State Budget for the Contribution, the said sum will have to be paid now from some source in the current year's budget ~~from which this has to be met has to be found~~

Rem 16/8

2 No provision appears to have been made in the Budget for the current year. Also

File No 89 of 1933

General and Revenue Secretariat

The municipal commr's letter is silent as to wherein the mill has made arrangements for paying ~~Town~~ its proportionate ~~charge~~ quota of the maintenance charges due by it for water supplied from 15-3-33 the date from which the actual service was commenced. At the rate of 4 lakhs per annum, the amount payable by the mill from 15-3-33 to end of June 1933, comes to nearly a lakh and half.

(ii) The Contribution of Rs 3 crores promised by Govt to make up Rs 4,00,000/- ~~today~~ can be demanded only when the mill cannot realise the full ~~amount~~ under the different heads and after ~~they~~ it has made necessary arrangements to pay the same.

(iii) It is not known wherein the mill has paid the amount due by it from 15-3-33. The P-W-D. Secty may if approved be consulted, ~~as to wherein they have gone~~ in the matter.

16 The Financial Secretary has opined that this case has to be dealt with in accordance with the revised orders viz G.O. No 1129-31/Mil-260-32-13 dt 9th August 1933.

2 - The contributions promised by Government to make up the sum of Rs 4,00,000 is upto 30,00 the amount may be less if the realisations from other sources are more than anticipated the amount was not provided in the Budget for 1932 33, nor is it provided in the current years Budget. It has to be decided from what head of account the amount has to be met.

The Municipality has to intimate the actual realisations from its other sources of revenue to determine the Government contributions.

The cost of water supplied from 15th March 1933 upto end of May 1933 aggregated Rs 1,03,943, and the Municipality have so far paid Rs 51,972/-

The Municipality will be entitled to only a proportionate amount for the period in question.

17 I have addressed a separate letter in this & other matters arising from the G.O. for orders of Govt

	by fixing of meters. Where there are none today some time or till then there will be no revenue under this item

NOTE—Contn Sheet

25 The question of the levy of water rate (or water charges) on Govt buildings and the amount payable by Govt on this account for the past year are under consideration separately, and the connected file is before the II Member

26 Regarding the reduction of free allowance from 4000 to 2500 gallons, retrospective effect cannot be given to the reduction. For this purpose, the rules (issued in the P.W.D.) having the present allowance of 4000 gallons have to be altered, and the claim for excess on the basis of the reduced allowance has perhaps to be made from the next quarter commencing from 1.10.1933. Necessary action has to be taken in the matter in the P.W. Sect.

27 In view of the above, the proportionate share of the maintenance charges due by Govt will have to be paid in full for the past year & perhaps also for the current year

28 As pointed out already, no provision has been made for the purpose either in the budget of last year or of the present year and the amount due will have to be met from some other source. The amount due by the Mfg for water supplied from 15.3.33 to end of May 1933 is stated to be Rs 1039/13 & the payment by the Mfg is only Rs 51772. Apart this and the question of procedure for claiming the amounts due by the Mfg raised in the last para of the Chief Engineer's letter, the Fin'ce Secy may be consulted

CITY MUNICIPAL OFFICE,

Bangalore City, Dated 11th Aug. 1933

FROM

P H KRISHNA RAU, ESQ, M A,
MUNICIPAL COMMISSIONER,
BANGALORE CITY

To

R. Ranga Rao, Esq., B.A.,B.L.,
Chief Secretary to the Govt. of Mysore,
Bangalore.

Sir,

I have the honour to state that Government in their letter No L.4263-M1.81-29-14 dated 10-12-1931 agreed to contribute up to Rs.30,000 to the Municipality towards the maintenance of the New Water Supply. In accordance with the above promise, they provided on the receipt side of the City Municipal Budget for the 2nd half year of 1932-33 a sum of Rs.15,000 as Government Grant in this behalf as the New Water Supply Scheme was likely to come into effect from 1st Jan. 1933 -vide Government Order No.L. 1877-80/M1.226-31-2 dated 8-9-1932 sanctioning the Budget.- (Extract of the order is enclosed for ready reference.) Therefore a bill was sent for the above amount of Rs.15,000 to the Comptroller to Government. The Comptroller states in his letter No.W.A.D. 1/153 dated 8-8-1933(copy enclosed) that ~~the~~ mere provision in the Municipal Budget is not sufficient authority for payment of the contribution.

I therefore request that specific orders in the matter of payment of the amount may kindly be issued early as the money is urgently required to meet the demands.

I have the honour to be,

Sir,

Your most obedient servant,

Municipal Commissioner.

Memo.

Forwarded with compliments.

Honorary President.

vvk.2

Extract from the proceedings of the Government of His Highness the Maharaja of Mysore, No L.1877-80 /Ml.226-31-2 dated Bangalore, 8-9-1932.

** **

The estimates do not, however, provide for the payment of the water supply charges in accordance with the revised arrangements approved in G.O.No L.2033-5/Ml 81-29-14 dated 5-9-1930 and General Secretary's letter No.L.4263-5/Ml.81-29-14 dated the 10th Decr. 1931. As the revised arrangements is likely to come into effect from 1st January 1933, the provision of Rs. 2,00,000 made for water supply will be tentatively raised to Rs.3,00,000, an estimate of Rs 15,000 on account of Government Grant and Rs 20,000 on account of water rate on Government buildings being included on the receipt side

** **

Municipal Commissioner

12 8 33

Letter No. WAD I 153 dated 8th August 1933 from the Comptroller to Govt , Bangalore, to the Municipal Commissioner, Bangalore City

*****

With reference to your letter No. W. 283 dated the 19th /21st July 1933 regarding the payment of Rs. 30,000, I have the honour to request you to kindly intimate whether there is any specific Government Order authorising the payment of Rs 15,000 to the Municipality for the half year ending 1932-33 towards water supply charges besides Govt. Order No L. 1877-80/M1. 226-31-2 dated 8th Septr. 1932 sanctioning the Municipal Budget for the year 1932-33 No provision is seen to have been made in the General Budget of the State for 1932-33 As in the absence of specific orders of Government for payment pointing out the source, the amount is not payable, I request you to kindly obtain and communicate the necessary orders of Government in the matter before 1st of Septr. 1933 by which date the books of this office for the year 1932-33 will be closed The mere provision in the Municipal Budget is no sufficient authority for payment of the contribution amount

Subject: Supply of water to Bangalore City from the Sri Chamarajendra Water Works at Thippagondanahalli.

Sir,

Adverting to G.O No L.1129-31/Ml.260-32-13 dated 9th August 1933, passing orders in regard to the arrangements made for the daily supply of water to the Bangalore City from the Sri Chamarajendra Water Works at Thippagondanahalli, subject to certain conditions, I have the honour to state that it is ordered that the arrangements referred to will take effect from the date of commencement of supply from the New Reservoir i.e., 15th March 1933. No realisations can be expected under certain items for 1932-33 and partly under certain items in 1933-34 for reasons explained under:-

(1) Item (iii) - Additional excess water charges expected to be realised by metering unmetered connections Rs.46,000

All the unmetered connections are yet to be metered. The question of purchase of meters and their installation is still under consideration. The loan sanctioned to the Municipality for this purpose is Rs.1,50,000. But according to the quotations received by the Stores Purchase Committee, the cost of the meters and their installation would be nearly Rs.2,15,000. An estimate has been forwarded to the Commissioner of the

C 181-29-193

Municipality for countersignature, on receipt of which, sanction of Government will be obtained and work started.

(iv) Additional income likely to be recovered by reduction of free allowance from 4000 to 2500 gallons.

Whether the order can be given retrospective effect i.e., from 15th March 1933 (1935) is for consideration June quarterly bills have been prepared on the basis of 4000 gallons minimum and people may not agree to pay for the excess above 2500 now. If retrospective effect can be given, the charges will be preferred in the bills for the current quarter which would be presented in October 1935, though the recovery would be difficult There might have been changes in the tenancy and occupancy and the present tenants or occupants would certainly not pay for consumption by others -- who preceeded them.

(v) Levy of water rate on Government Buildings - Rs.40,000.

No provision was made for this in the last year's -- budget or in the current year's budget. This sum of Rs.40,000 - has to be recovered from the respective Departments in whose occupation the buildings are What amount has to be paid on each -- building has to be assessed by the Municipality and the share due by each department will then be fixed by this Department in consultation with the Heads of other Departments.

2. It has also to be decided from what source, the Government contribution "up to 30,000" to make up the aggregate of -- Rs 4,00,000, and the additional contribution to the Municipality towards the increased supply up to 2.75 million gallons per day - contemplated under sub clause (4) of para 1 of the order has to be met. The amount has to be found by reappropriation after the -- source is indicated has to be indicated

3. The procedure to be followed as regards the payment of the monthly bills by the Municipality for water supplied, I think the Water Supply Department may send monthly bills to the Municipality for the water supplied at the same scale as is adopted for

Continuation sheet

for the Civil and Military Station, less collections realised by the Water Supply Department under the heads for which that department is responsible and the Municipality to pay on this basis and claim a refund of excess if any at the end of every half-year, if they are entitled to it under the conditions of the Government Order.

The favour of very early orders of Government on the above points is solicited

I have the honour to be
Sir,
Your most obedient servant,

Chief Engineer of Mysore 9/9/33

TSRN.

L 3075 3145/ Ml 260-32-17 dy 6-11-33

PROCEEDINGS OF THE GOVERNMENT OF H.H. THE MAHARAJA OF MYSORE.

Read:-

G.O.No.L.1129-31/Ml.260-32-1 dated 9-8-1933 laying down the conditions subject to which supply of water will be given to the Bangalore City from the Sri Chamarajendra Water Works at -- Thippagondanahalli.

2. Letter No.2603 dated 9-9-1933 from the Chief Engineer in Mysore, soliciting instructions as to (1) the date from which the reduction of free allowance of water from 4,000 to 2,500 gallons has to be given effect to, (ii) the manner of the levy of water rate on Govt buildings (iii) the source from which the Government contribution up to Rs 30,000/- to make up the aggregate sum of Rs 4 lakhs and the additional contribution to the municipality towards the increased supply up to 2.75 million gallons per day has to be met and (iv) the procedure to be followed as regards the payment of bills by the municipality for water supplied.

3. G.O.No.L.2410-12/Ml.260-32-16 dated 12-10-1933 directing, in modification of the Order of 9-8-1933 read above, that a supply of 3 million gallons of water per day be given to the municipality for the sum of Rs 4 lakhs to be paid by it every year, any supply in excess of the said quantity being paid for by the municipality at rates to be settled in due course.

- - - - -

ORDER NO:

Dated, Bangalore, the

Government are pleased to direct as follows on the points raised by the Chief Engineer in his letter of the 9th September 1933 read above.-

1) The reduction of the free allowance of water cannot be given effect to retrospectively. The rules issued in the P.W.D. fixing the present free allowance of 4,000 gallons have to be altered first and the claim for excess water charges on the basis of the reduced allowance made thereafter. Necessary action should be taken early in the matter.

2) The Chief Engineer is requested to take early action, in consultation with the municipality, regarding the installation of meters ~~where there are none and the water rate to be assessed on Government Buildings.~~

3 In respect of the levy of water rate on Govt buildings, the sum of Rs 40,000 estimated under this head has to be received from the respective departments in whose occupation the buildings are, the amount to be paid on each building being assessed by the Municipality and the share due by each Department being then fixed by the Chief Engineer in consultation with the heads of the Department. The amount so fixed should be treated as contingent expenditure of the office concerned and the necessary provision made in the future Budgets, the amount payable during the current year being met by reappropriation of sanctioned grant.

4) 3) As regards the source from which the Government contribution has to be paid and the procedure for the recovery of the amount due from the municipality, Government are pleased to direct that for the year 1932-33 the amount of deficit payable by Goverrment for the period from 15-3-1933 to end of June 1933 may be calculated at the rate of Rs 30,000 per annum and deducted from the amount due by the municipality for the water supplied

From the current official year, the municipality may be required to pay the full amount due by it once (x) a quarter and claim the amount of the deficit payable by Government at the end of the year, taking into account the details

of receipts under items (i) to (vii) mentioned in condition (1) laid down in the G.O. of 9-8-1933 and having regard to condition (5). The deficit so arrived at may be permitted to be deducted from the amount payable by the municipality for the last quarter of the year.

The amount of contribution found payable by the Government according to the calculations referred to above should be charged to the head "30 Grants for Public Improvements - Improvement of Water Supply in Towns" in the accounts, the required additional grant being obtained from the Legislature. The Chief Engineer is requested to intimate to Government before the end of May every year the amount of contribution found payable ~~from~~ by them so as to enable a supplemental demand being placed before the June Session ~~ax~~ of the Legislative Council.

ORDER No L 3075-3145—ML 260-32-17, DATED BANGALORE, THE 6TH NOVEMBER 1933

Government are pleased to direct as follows on the points raised by the Chief Engineer in his letter of the 9th September 1933, read above —

(i) The reduction of the free allowance of water cannot be given effect to retrospectively The rules issued in the Public Works Department, fixing the present free allowance of 4,000 gallons, have to be altered first and the claim for excess water charges on the basis of the reduced allowance made thereafter Necessary action should be taken early in the matter

(ii) The Chief Engineer is requested to take early action, in consultation with the Municipality, regarding the installation of meters

(iii) In respect of the levy of water rate on Government buildings, Government direct that the sum of Rs 40,000 estimated under this head has to be recovered from the respective departments in whose occupation the buildings are, the amount to be paid on each building being assessed by the Municipality and the share due by each department being then fixed by the Chief Engineer in consultation with the Head of the Department The amount so fixed should be treated as contingent expenditure of the office concerned and the necessary provision made in the future budgets, the amount payable during the current year being met by reappropriation of sanctioned grants

(iv) As regards the source from which the Government contribution has to be paid and the procedure for the recovery of the amount due from the Municipality, Government are pleased to direct that for the year 1932-33, the amount of deficit payable by Government for the period from 15th March 1933 to end of June 1933 may be calculated at the rate of Rs 30,000 per annum and deducted from the amount due by the Municipality for the water supplied

From the current official year, the Municipality may be required to pay the full amount due by it once a quarter and claim the amount of the deficit payable by Government at the end of the year, taking into account the details of receipts under items (i) to (vii) mentioned in condition (1) laid down in the Government Order of 9th August 1933 and having regard to condition (5) The deficit so arrived at may be permitted to be deducted from the amount payable by the Municipality for the last quarter of the year

No L 3075-3145—Ml 260-32-17, dated 6th November 1933

The amount of contribution found payable by the Government according to the calculations referred to above should be charged to the head "30 Grants for Public Improvements—Improvement of Water Supply in Towns" in the accounts, the required additional grant being obtained from the Legislature The Chief Engineer is requested to intimate to Government before the end of May every year, the amount of contribution found payable by them so as to enable a supplemental demand being placed before the June Session of the Legislative Council
